Subject: RE: Battelle contract -by 10/18 - scope of work? Example reports?

Hello Lily,

See the Implementation Plan for Independent QA Oversight for Radiological Activities prepared by Battelle attached. Hopefully this gives you a good example of QA/QC processes at Radiological sites.

Note that Battelle creates activity-specific checklists to follow in the field by reviewing each project workplan for each radiological contractor. Some example checklists are attached.

Thank you
Leslie
